

Job Title: Research Assistant
Department: Department of Management
Job ID: 6999

Job Posting Details

The appointee will be required to develop program in Python or STATA to retrieve and process data in a sophisticated and advanced way, and work on empirical work such as replication of top journal publications (e.g. AER, RES, JFE, SMJ, MS, etc.).

Applicants should have a bachelor's degree or above in mathematics, business analytics, computer science, economics or other related areas, and an excellent command of written and spoken English. The ideal candidate should have sincere interest in academic research or possess relevant working experience (e.g. algorithm developers). (Duration: 3 months)

Starting salary will be commensurate with qualifications and experience. Fringe benefits including medical benefits and paid leave will be provided where applicable.

Application Procedure

In support of a green work environment, we accept applications submitted online only. To apply, please complete an online application form through the HKUST Careers website (<https://hkustcareers.ust.hk>) and return it online to the Human Resources Office. Review of applications will start as soon as possible and continue until the position is filled. Applicants will receive an acknowledgement by email upon successful submission. We thank applicants for their interest, but advise that only shortlisted candidates will be notified of the result of the application. (Information provided by applicants will be used for recruitment and other employment-related purposes only.)

HKUST is an equal opportunities employer and is committed to our core values of inclusiveness, diversity, and respect.
